División de Ciencias Naturales e Ingeniería  
Universidad Autónoma Metropolitana-Cuajimalpa  
Mexico

### **Letter of invitation for Prof. José Campos Terán**

During your recent visit to our division in April 2018, we discussed the possibility of you coming on a sabbatical to division of Physical Chemistry, Dept. of Chemistry at Lund University. We then discussed several topics of common interest in the area of biomolecules surface interactions and nanotechnology, where in particular cellulose surfaces were highlighted. It is therefore my pleasure to invite you for a sabbatical as a guest researcher at our division. An ideal date for this visit would be from the 1<sup>st</sup> of July 2019 to 31<sup>st</sup> of August 2020. We would be happy to help you and your family with practical arrangement in connection with your sabbatical stay in Lund. Very much looking forward to your visit and to working with you.

Very welcome to Lund and Lund University!

Sincerely yours

A handwritten signature in blue ink, appearing to read 'Tommy Nylander'.
