Letter of attendance of Symposium on Big Data in Precision Medicine

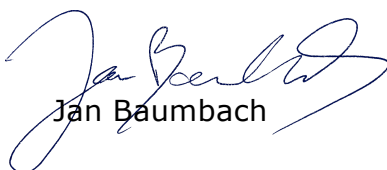

Dear Sir or Madam,

I hereby confirm that Dr. Rodrigo Gonzalez Barrios de la Parra participated in our Symposium on Big Data in Precision Medicine in Odense, Denmark, from July 27 to July 28, 2016. He was invited speaker and contributed with a scientific talk of one hour on "Epigenetics in precision medicine, approaches and future applications".

Furthermore, he participated actively in special interest group meetings on July 30 and July 31, 2016, where we structured and designed possible future collaborations between the University of Southern Denmark (SDU) and UNAM institutes. We agreed on trying to set up double degree agreements between our PhD schools in 2017, and to potentially establish a formal exchange program between our two institutions.

If further questions arise please do not hesitate to contact me.

Best regards,

Jan Baumbach
