Potsdam, 24th July 2021

Invitation to University of Potsdam for your sabbatical

Dear Prof Chacón-Acosta,

It is a pleasure to host you at the University of Potsdam during your sabbatical. At the moment, we are planning your stay for the period from 1st January to 30th September 2022. I understand that these plans may be subject to change according to any travel restrictions at the time, due to the ongoing pandemic.

In the meantime we will meet online to discuss more precisely the topics that we are going to study during your visit in our group. The latter currently consists of a senior scientist, two postdocs, four PhD students, and two visiting Humboldt fellows.

Of course, we will be providing office space and access to all facilities of the institute, including library services and computing. You are also welcome to participate in our regular academic and social group life.

Once we know the precise dates I will put you in touch with our Welcome Centre, they will help you to find accommodation.

Please do not hesitate to be in touch for any questions.

With best wishes,

Prof Dr Ralf Metzler
