Dear authors,

Gabriela Araujo-Pardo, Julio César Díaz-Calderón, Julián Fresán, Diego González-Moreno, Linda Lesniak, Mika Olsen:

We have reached a decision regarding your submission to The Art of Discrete and Applied Mathematics, "On (r, g, χ) -graphs and cages for infinitely many values of regularity r , girth g and chromatic number χ ".

Our decision is to accept the revised version of your paper for publication in the special issue devoted to the Banff workshop in 2023.

I am notifying the technical editor who should contact you should he need some further information. I saw that you had already submitted the tex source for your contribution.

Thank you very much for submitting to ADAM.

With best wishes,

robert jajcay
